Handling Testing and Wrapping Up

Sara Morgan Nettles
CERTIFIED PLATFORM II DEVELOPER

@SaraHasNoLimits   www.saramorgan.net

Benefits of Testing

Save you time from

- Chasing bugs

- Fixing bugs

- Releasing your fix

Introducing Jest

Open source

Fast and easy to use

Includes code coverage

Only work for LWC's

Installing sfdx-lwc-jest

Install prerequisites

Setup project with npm

Install sfdx-lwc-jest and dependencies

Identify test script

Jest tests are local only and run independently of Salesforce

Key Takeaways

Less frameworks; more web standards

Embrace VS Code and Salesforce DX

Use CustomEvents when possible

LWC programming model is very different

Never be embarrassed about mistakes

Keep learning and share it

Thank you for watching
